

The
Appointments
Commission

Addendum to the Procedure for Appointing to Tribunals and other Bodies
(Version as dated 16/01/2019)

Within the Programme for Government there is a commitment to improve the operation of the Tribunal System. To facilitate this commitment The Cabinet Office is currently carrying out a Review of the Tribunals System and will be reporting in due course to the Council of Minister.

The Appointments Commission have determined that until the outcome of this review is published and the format of the future Tribunals system is known that all vacancies arising will be filled by seeking expressions of interest from across all the existing tribunal membership. If this fails to suitably fill the positions then the existing recruitment process will be employed as published on the website.
